

Pearl Wire Cloth

IS A Pocket Book Protection

Wire Cloth as compared with the frames is so small a part of screen cost that the price difference between Pearl and painted or galvanized isn't worth consideration. But the wear difference is what counts. Rust ruins screens. Pearl doesn't rust, and that's the whole story in a nutshell. No painting, no repairing, no pulling frames to pieces to replace the wire if you screen with Pearl.

Get a Fresh Start!

For men who get away to a false start on a pipe or home-made cigarette Prince Albert has a word or two for what ails their smokeappetites!

Forget you ever tried to smoke, for Prince Albert is so different, such a fine flavor, so cool and cheerful and friendly, you'll get a new "smoke" joy! The patented process does that—and cuts out bile and parch!

And this little presentment is also for men who think they're on the right track. All to be said is that the sooner you lay out a nickel or a dime for a supply of Prince Albert, the sooner you'll make a discovery that'll be worth a lot to your peace of mind and tongue!

Get the idea of smoking all you want without a comeback—that's P. A.
R. J. REYNOLDS TOBACCO CO., Winston-Salem, N. C.

On the reverse side of this tidy red tin you will find the "Prince Albert" which has made three new smoke pipes where one smoked before!
